PROFESSIONAL EXPERIENCE

Frontend Developer Support

Sep 2022 - Current

Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript, and React
- Debugged applications using Google Chrome inspect element tooling
- Simplified complex programming concepts, including responsive design, CSS layout, Promises, and API requests

Frontend Developer Internship

Sep 2022 - Dec 2022

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript, and React single page application into an interactive user interface using animations, transitions and carousels
- Handled API requests with Axios and dynamic data representation with skeleton loading, pagination, and dynamic routing
- Utilized Git and GitHub for virtual and collaborative team development

Medical Device Technical Support

Nov 2020 - Feb 2023

Abbott Laboratories

- Provide first level support in troubleshooting customer complaints and inquiries
- Receive calls and emails and address them in a professional and effectively
- Resolve and address any complaints or inquiries within the target timelines

PROJECTS

UltraVerse NFT World | [Website](#) | [GitHub](#)

A fully responsive NFT app with multiple API integration, React-Slick, and CSS3 animations on scroll

MyTube Videos | [Website](#) | [GitHub](#)

A responsive video app built with React and Material-UI integrating the YouTube API for video search and display.

Twitter Project | [Website](#) | [GitHub](#)

A social media app built with React with features such as sign-in, posting, commenting, sharing, and messaging, utilizing OAuth authentication and API integration, deployed on Firebase.

Hulu Project | [Website](#) | [GitHub](#)

A full-stack web app replicating the functionality of Hulu, built with Next.js, with features such as browsing, searching, and watchlist management.

Internet Flicks | [Website](#) | [GitHub](#)

A virtual library app built with React, allowing users to browse, search, and checkout books, demonstrating e-commerce development skills.

Library App | [Website](#) | [GitHub](#)

"Library App" allows users to browse and search for books, add books to a virtual bookshelf and cart, and checkout. The project was developed using the React JavaScript library and demonstrates my ability to work on e-commerce websites.

QR Wizard | [Website](#) | [GitHub](#)

A web app for generating QR codes using the React library, with user-friendly options for various uses such as storing contact information or linking to a website.

PERSONAL
